

## Kimberly-Clark\* Fluidshield N95 Particulate Filter Respirator and Surgical Mask, Safety Seal Film

46767

### Features & Benefits

Kimberly-Clark Fluidshield N95 Particulate Filter Respirator and Surgical Mask is constructed with a fluid-resistant layer and a combination of materials to resist fluid penetration. It has the Safety Seal Film for added protection. The pale orange-colored mask has Kimberly-Clark's signature So Soft lining, which is gentle against the skin, and a pouch-style, large breathing chamber for added comfort. Two polyurethane headbands secure the mask to the face to help ensure a tight facial seal and prevent leakage around the mask edges. It is rated N95, demonstrating that it provides a minimum of 95% filtration efficiency of 0.3 micron particles (though it is not oil-resistant). It is rated as ASTM Level 3 fluid protection (for heavy fluid protection). When you need a reliable, comfortable particulate filter respirator to help protect your team, you can trust the NIOSH-approved Fluidshield N95 Particulate Filter Respirator and Surgical Mask by Kimberly-Clark.

- Provides a minimum of 95% filtration efficiency of 0.3 micron particles (N95 rating); Includes NIOSH approved Safety Seal Film
- Made with a fluid-resistant layer and a combination of materials to resist fluid penetration; ASTM Level 3 (heavy fluid protection)
- Two polyurethane headbands secure the mask to the face to help ensure a tight facial seal and prevent leakage around the mask edges
- Large, pouch-style breathing chamber and So Soft lining for added comfort

### Product Details

Size:	Regular
Quantity/Unit:	35
Units/Case:	6
Quantity/Case:	210
Case Size:	10.875 X 14.250 X 10.250
